RE: DOCKET 99P-0033/CP 1.

Dear Commissioner Henney:

As a concerned citizen and a concern for animals, please act on the HFA petition to put
An end to the practice of feeding DEAD pigs, horses, and other animals to other
LIVE farm animals.

The cows are not meat eaters; and they should NOT be forced to eat dead animals.

The HFA demands must be met that the following practices NOT continue:

Blood and blood products from pigs and cows be PROHIBITED for use
in animal feed and pet foods.

Gelatin by-products and gelatin may carry infectious agents and must NOT be used
in animal feed.

Porcine materials must NOT be used because US. Pigs have exhibited symptoms
of CENTRAL NERVOUS SYSTEM disease suspected as being TSE in laboratory
tests. I HAVE A FRIEND WHO IS SUFFERING FROM CENTRAL NERVOUS
SYSTEM disease for over one year. There is NO known cure or treatment per
clinical trials in the United States.

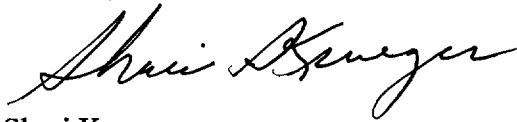

99P-0033

C 210

TSE-positive material must NOT be fed to ANY animals or be used in products such as cosmetics and fertilizers.

Any efforts on behalf of the farm animals is appreciated in bringing this docket into law.

Sincerely,

A handwritten signature in cursive script, appearing to read "Shari Krueger".
